Action Planning

Moving forward our system of care principles

Some of our identified needs are:

Identified Needs:

- Edgerton School District needs to be on MOU
- Families understanding the team perspective – collaborative team
- Family/informal supports involved in all levels of decision making
- Access to team process in all systems
- Team approach across systems, training, education & support
- Continue outreach about team based approach
- Point of contact for CST at each Police Department
- Understand what other groups that support children and families are doing
