OCTOBER 20, 1983

On October 19, I was in the R.H. Batterman's office. While there I noticed two large books. They were copies of the field notes of the 1870s resurveyed townships. The notes contained the original signatures of the county surveyors who did the work. Milton township was one of the townships. These two books appear to be on the State Historical Society's list. They were microfilmed and returned to the RH Batterman Company. The entire matter was referred to the Corporation Counsel, Tom Schroeder.
