Executive Summary

The Rock County Sheriff's Office, in an effort to make its Sheriff's Office and patrol deputies safer and more efficient, is purchasing five (5) additional Digital In-Car Video Cameras to go with their current system. This system would allow video footage to be recorded from deputies' squads while they are patrolling our highways. The footage recorded by this system will often times be used in a court of law as evidence. This evidence would then support the deputies' actions and the arrests that they make. Mobile Squad cameras have proven time and time again to be a very valuable piece of equipment for the Sheriff's Office and law enforcement agencies across the county. Currently, the Sheriff's Office has eighteen (18) of their patrol squad cars equipped with WatchGuard video cameras.

The WatchGuard Video Company employs the industry's largest engineering team and has invested about \$30 million specifically into the development of digital in-car video systems for Law Enforcement. WatchGuard is designed and manufactured in the U.S.A

The total cost for five (5) additional In-Car Video cameras is \$25,975. The funding will come from the Sheriff's Office 2018 budget.

This is additional equipment to the original bid #2014-54.
