

**RESOLUTION
ROCK COUNTY BOARD OF SUPERVISORS**

Board of Health
INITIATED BY

Marie-Noel Sandoval
DRAFTED BY

Board of Health
SUBMITTED BY

November 17, 2016
DATE DRAFTED

Accepting Asthma Capacity Program Grant Amendment to the Consolidated Contracts and Amending the 2016 Rock County Public Health Department Budget

1 **WHEREAS**, Asthma is a chronic lung condition that affects 15 percent of adults and 10 percent of
2 children in Wisconsin; and,
3

4 **WHEREAS**, Rock County Health Department was awarded a consolidated contract grant amendment
5 from the Wisconsin Department of Health Services for Asthma Capacity; and,
6

7 **WHEREAS**, this is a twelve month consolidated grant amendment of \$23,000, beginning September 1,
8 2016 and ending August 31, 2017; and,
9

10 **WHEREAS**, this consolidated grant amendment will provide Asthma health promotion and coordination
11 with local health care providers, and other partners with the purpose of improving asthma rates in Rock
12 County.
13

14 **NOW, THEREFORE, BE IT RESOLVED** that the Rock County Board of Supervisors duly assembled
15 this 15th day of December, 2016 does hereby authorize the Rock County Health
16 Department to accept this Consolidated Contract amendment in the amount of \$23,000, and amend the
17 2016 Rock County Public Health Department Budget as follows:
18

Account/Description	Budget	Increase	Amended
Source of Funds	1/1/16	(Decrease)	Budget
31-3033-2017-42100

Executive Summary

Asthma is a chronic lung condition that affects 15 percent of adults and 10 percent of children in Wisconsin. The burden of asthma in Wisconsin is not equally shared, with certain minority groups, age groups and geographic regions disproportionately affected. Rock County has had consistently high asthma emergency department visit and asthma hospitalization rates over the past decade. Too many people with asthma in Wisconsin struggle to thrive at work or school and are subject to reduced quality of life because their asthma remains poorly controlled. A variety of factors are known to trigger asthma episodes (attacks), including allergens (e.g., pollen, dust mites and mold), viral infections, irritants (e.g., chemicals, tobacco smoke and air pollution) and other factors, such as exercise, cold air and stress. This complex, multi-faceted condition requires a comprehensive approach to effective management at both the individual and population levels. Comprehensive asthma care includes a seamless alignment of the full array of services across the public health and health care continuum. The National Asthma Education and Prevention Program Expert Panel Report outlines four components of care including routine health care visits, pharmacological treatment to effectively manage and control symptoms, patient education, and an environment that minimizes exposure to asthma triggers. This grant will serve to improve asthma rates in Rock County.
